

Container logistics - one partner, all services

Welcome at the professional and competent partner for:

- National and international container transport throughout Europe (local and long-distance transport)
- In particular for long-distance transport to / from German northern harbors
- One-way traffic and round trips from North Harbor the West Harbor
- Standard container transports (in the near future: combined and ADR-transports)
- 45-foot container shipments
- Temperature-controlled reefer container/genset
- Secure intermediate storage for containers (also for temperature-sensitive goods)

You can count on:

- reliable performance
- high flexibility
- high punctuality
- short communication channels
- very good availability, 24 hours – 365 days
- modern multi-functional chassis for every sea container
- state of the art vehicle equipment

and much more.

We look forward to working for you.
